**Empowering
Thriving Growth
Technologies and
Alliances to Enable
Business Transformation**

CALL FOR PAPERS

FOUNDERS

SUPPORTED BY

Unlocking the Potential
of OMC Med Energy 2025

Enabling Business Transformation

We all know that the energy sector is the source of around three-quarters of greenhouse gas emissions today, that's why the sector holds the key to averting the worst effects of climate change.

The International Energy Agency has showed that the world has a viable pathway to building a global energy sector with net-zero emissions by 2050, but it is narrow and requires unprecedented transformation of how energy is produced, transported and used globally. A transition of such scale and speed cannot be achieved without sustained support and participation from all stakeholders. New technologies, business innovation and alliances will be prime enablers to reshape energy towards sustainable growth: pushing forward gas valorization and carbon neutrality practices while developing clean energy sources as an integrated and synergic process will empower affordable energy for all in a low-emissions future.

Contribute with your insights across a wide variety of topics; join OMC Med Energy 2025 by submitting abstracts for the technical pillars of the next Conference: **Carbon Neutrality** to build a net-zero energy industry, **Operational Excellence** to improve efficiency and growth without forgetting the importance of **Technologies and Applications** to share successful cases.

The Programme Committee look forward to receiving your high-quality abstracts to include in our technical programme.

Edoardo Dellarole

OMC Med Energy Programme Committee Chair

*Eni - Research & Technological Innovation
Head of Electrification*

Gain visibility with an exclusive speaking opportunity

Your Expertise Matters

Why presenting at OMC Med Energy Conference:

- OMC Med Energy provides the ideal platform for experts eager to exchange their views and contribute to speed up and accomplish energy transition.
- Long term visibility: all selected papers are published in the Conference proceedings, are indexed on ISBN and made available for free download to 2025 delegates. Moreover, OMC Med Energy Papers can be purchased from OnePetro online library. 
- Speakers are eligible for one of OMC Med Energy Awards. The most innovative works to be awarded on the closing day.

Conference Pillars and Topics

TECHNOLOGIES AND APPLICATIONS	CARBON NEUTRALITY	OPERATIONAL EXCELLENCE
Artificial Intelligence Asset Digitalization Case studies Facilities Innovation Methodologies New Business models Tech deployment	Biomasses & Biofuels CCUS Circular economy GHG reduction Hydrogen Nuclear Renewable energies Storage	Asset integrity Digital solutions Energy Efficiency HSE Offshore Operation Optimization Robotics Subsurface Sustainability

Want to submit an Abstract?

Sign up at www.omc.it and submit your original and unpublished abstract - no more than 800 words, condensing the innovative essence of your work- **by 1st October 2024**.

OMC Med Energy 2025 Programme Committee

A network of professional energy experts contributing to the high scientific and technical outline of the conference.

Sattam Almutairi – Saudi Aramco

Ahmed Amer – Oxy

Andrea Bombardi – Rina

Chiara Boschi – CNR

Claudia Brunori – ENEA

Igor Calcio Gaudino – Equiter

Filomena Castaldo – Eni

Fabio Cervini – Halliburton

Ivo Colombo – Geolog International

Daryl Cullum – Newpark Drilling Fluids

Ilaria De Santo – SLB

Fabio Decataldo – TechnipFMC

Alberto Di Lullo – SPE Italy

Marco Frey – Scuola Superiore Sant'Anna

Piero Gattoni – Consorzio Italiano Biogas

Antonella Godi – Energean Italy

Giacomo Gorni – Eni

Laura Govoni – Università di Bologna

Edgar Keijser – Oil States Inc.

Yousef Khanfar – Sonatrach Energies Nouvelles

Manuel Miceli – TotalEnergies E&P Italia

Matteo Mistri – Shell Italia E&P

Enrico Nosedà – Fondazione Cariplo

William Palozzo – DG Impianti Industriali

Francesca Pippione – Eni

Francesca Porta – Accenture

Antonio Protopapa – Corepla

Giorgio Ricci Maccarini – Eni

Vittoria Roiati – Eni

Pietro Romanin – BCG

Marco Ruggiero – Baker Hughes

Siddharth Saboo – Amazon Web Services

Cristian Scaini – Saipem

Francesco Siliprandi – Energean Italy

Filippo Tessari – FEEM

Umberta Tinivella – OGS

Simone Togni – Anev

Dario Viberti – Politecnico di Torino

Looking forward to seeing you at
